KBZ VISA Credit Card

KBZ Visa credit card is a kind of unsecured personal loan provided through a “plastic card” which can be used for payment of goods & services or cash withdrawal.

There are two (2) types of Visa credit card issued byKBZ bank i.e Platinum & Classic cards with PayWave function. KBZ Visa payWave is a contactless method of payment – the latest evolution in Visa payments. It is simple, secure and quick payment method. The technology enables cardholders to ‘tap’ their card on a contactless POS terminal to make transactions up to the amount set by merchant’s acquiring bank, rather than ‘swiping or dipping’ their card into POS terminals. The cards have a tiny antenna embedded into the chip which securely transmits payment instructions to and from a specially adapted card terminal.

Customers can apply for any of the card based on their income eligibility.

Guide to using VISA Credit Card

Since your credit card is currently in Forced Green Pin mode, it is necessary to activate the card at a KBZ bank ATM when you pick it up.

To Activate the Card and Change the ATM PIN

Once you have collected your credit card at the KBZ branch, insert your credit card at the nearest KBZ ATM. An OTP (One-Time Password) will be sent to your registered mobile phone number via SMS.

Enter the 6-digit OTP you received on your mobile phone.

To set a new PIN, enter the desired 6-digit ATM PIN twice.

After changing the PIN to your new secret PIN, your card will be ready for use.
